DEADLINE

2 Mei 2026 | 23.59 WIB

Submit to: caesarzach@gmail.com

Subject email: "Stage 2 Developer Recruitment"

CANDIDATE INFORMATION

Full Name

Email Address

Phone / WA

LinkedIn / Portfolio

CHALLENGE OVERVIEW

Build a web application with a clear AI narrative. You may use any AI API or model (OpenRouter is allowed). The project should demonstrate your ability to integrate AI meaningfully into a real web experience — not just as decoration.

Key criteria:

- AI is central to the product — not just a chatbot bolted on
- Use Character (Anime or non-anime) to representing the AI Agent
- The web experience is functional and accessible via browser

- The concept is original — unique use cases earn bonus points
- Project is deployed and live on Vercel
- Project includes branding — a logo or character identity for the product

Reference — example of a deployed Vercel project:

https://x.com/tom_doerr

WHAT TO SUBMIT

Fill in every field below completely. Incomplete submissions will not be reviewed.

Project Name

Name *Your project's name*

Project Overview

Describe your project in 150–300 words. What does it do? Who is it for? How does AI play a role?

Write your project overview here...

Project Links

All URLs must be active and accessible. Broken links = submission void.

Live URL (Vercel)* *https://your-project.vercel.app*

GitHub Repo* *https://github.com/username/repo*

Demo Video* *Google Drive link — video walkthrough of use case*

Logo / Character * Google Drive or direct image URL

TECH STACK & AI INTEGRATION

Frontend Framework

Framework e.g. Next.js, React, Vue, etc.

AI Model / API Used

Model / API e.g. OpenRouter / GPT-4o, Claude, Gemini, etc.

How AI is Integrated

Explain how AI is used within the product flow...

PROJECT BRANDING

Your project must have a name and visual identity. Include a logo or character design — this is part of the evaluation.

Project Logo / Art Paste Google Drive or image link

Branding Notes

Color palette, font choices, visual style — describe your design decisions briefly.

Describe your visual identity and design decisions...

WHAT MAKES IT UNIQUE

What sets your project apart? What is the unique use case or insight behind it?

Submit to caesarzach@gmail.com before 2 Mei 2026, 23.59 WIB

Good luck. Build something worth talking about.
